

## FiveMovies.java

```
/**
 * Prints out the movies that I like, but not love.
 *
 * @author Kyle Guarco
 */
public class FiveMovies
{
    public static void main(String[] args)
    {
        String[] movies = {
            "Zombieland", "Night of The Living Dead",
            "NGNL:Zero", "Zombieland 2", "Shaun of The Dead"
        };

        // Print every string in the 'movies' array
        for (String m : movies) System.out.println("> " + m);
    }
}
```

## Output

```
kyleg% java -jar bin/Introduction.jar
> Zombieland
> Night of The Living Dead
> NGNL:Zero
> Zombieland 2
> Shaun of The Dead
kyleg% 
```
